## for professional worry-free catering . . .

. . . thank you for all your efforts at our 10th Anniversary Function.

From the very first telephone conversation I only ever found Cherry's Catering to be helpful and supportive, even through many changes from us you always remained cheerful, it made the job so much easier for me as you adapted your menus and made suggestions to meet our needs.

On the day I could not have been happier - your staff arrived exactly on time, setup and were ready right on time. The table looked amazing and so professionally put together, and along with the professional looking staff I could not have been happier. The food was perfect, I was worried we might have run short, knowing how 90 workmen like to pile up their plates, but again I need not have worried, you supplied plenty of wonderfully delicious food, I even saw some of my guys coming back for a third helping.

There were many comments from the guys on how wonderful the food was.

Again I wanted to say a big thank you to you - I know, without hesitation, that any future function we have here at Volgren I will be contacting Cherry's for the professional catering . . .

Volgren staff with PM Kevin Rudd & MP Graham Edwards
